

Five Year Housing Supply Statement for Chorley

June 2023

Introduction

1. The National Planning Policy Framework (the Framework) sets out that local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their housing requirement.
2. This statement covers the five year period 1st April 2023 – 31st March 2028. It sets out the housing requirement for the five year period and assesses the land supply available to deliver the requirement.
3. Overall the statement concludes that there is a **3.2 year deliverable housing supply** over the period 2023-2028.

Five Year Housing Requirement

4. Central Lancashire Core Strategy Policy 4 sets out the housing requirement for Chorley which is 417 dwellings per annum over the period 2010-2026. However, as the Core Strategy is more than 5 years old, the requirement is replaced by the minimum annual local housing need figure calculated using the standard method set out in national planning guidance. The current figure for Chorley is 505. The housing requirement over the five year period is therefore 2,525.
5. Paragraph 74 of the Framework states that there should be an additional buffer (moved forward from later in the plan period) of:
 - a) 5% to ensure choice and competition in the market for land; or
 - b) 10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or
 - c) 20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving the planned supply.
6. The government has introduced the Housing Delivery Test which is an annual measurement of housing delivery in the area and is a percentage measurement of the number of net homes delivered against the number of homes required over a rolling three year period. The latest Housing Delivery Test was published by the Government in January 2022.

Table 2: Housing Delivery Test Measurement 2021

Monitoring Period	Total net homes delivered	Total number of homes required	Housing Delivery Test Measurement
2018/19	573	417	-
2019/20	640	382	-
2021/22	306	278	-
TOTAL	1,519	1,078	141%

7. The Housing Delivery Test identifies that there has been over delivery in the past three years therefore a 5% buffer has been applied to the five year requirement. After adding the 5% buffer, the total housing requirement for the five year period 1st April 2023 – 31st March 2028 is 2,651 dwellings which is 530 dwellings per annum.

Table 3: Five year housing requirement summary

Housing Requirement	Number of Dwellings
Annual Housing Requirement 2023-2028	505
Five Year Housing Requirement 2023-2028 + 5% buffer	2,651
Annual Five year Housing Requirement 2023-2028 + 5% buffer	530

Assessment of Deliverable Five Year Housing Supply

8. The Framework requires local planning authorities to identify and update annually a supply of specific deliverable sites sufficient to provide five years' worth of housing against their housing requirement. It defines 'deliverable' as follows:

"To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

- a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*
- b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years."*

9. The assessment of the deliverable five year supply is set out below. It includes an analysis of allocated sites, both with and without planning permission, and windfall sites. The windfall sites are split into sites of 10 or more dwellings and sites of less than 10 dwellings. It also includes a windfall allowance which is an estimate of the number of new dwellings on sites of less than 10 dwellings that will be permitted and built in the five year period.

Allocated sites

With planning permission

10. Appendix 1 sets out a schedule of all sites allocated for housing in the Chorley Local Plan 2012-2026 with planning permission that have not yet been fully implemented. In total 1,049 dwellings are available on these sites. An assessment of the deliverability of these sites has been undertaken to determine how many of these dwellings are likely to be built in the five year period.
11. The schedule identifies that there are **557 dwellings** deliverable on allocated sites with planning permission.

Without planning permission

12. Appendix 2 sets out a schedule of all sites allocated for housing in the Chorley Local Plan 2012-2026 without planning permission. In total 358 dwellings are allocated on these sites. An assessment of whether these sites are likely to come forward in the five year period has been undertaken.
13. The schedule identifies that there are **112 dwellings** deliverable on allocated sites without planning permission.

Windfall sites

Sites of 10 or more dwellings with planning permission

14. Appendix 3 sets out a schedule of all windfall sites of 10 or more dwellings with planning permission that have not yet been fully implemented. In total 819 dwellings are available on these sites. An assessment of the deliverability of these sites has been undertaken to determine how many of the dwellings are likely to be built in the five year period.
15. The schedule identifies that there are **613 dwellings** deliverable on windfall sites of 10 or more dwellings with planning permission.

Sites of less than 10 dwellings with planning permission

16. Appendix 3 also sets out a schedule of all windfall sites of less than 10 dwellings with planning permission that have not been fully implemented. In total 422 dwellings are available on these sites.
17. Based on an analysis of the completion rates of small sites in Chorley in recent years this figure has been reduced by 38% to reflect the fact that some permissions will expire and development of other sites will not be fully completed within the five year period.
18. This results in **262 dwellings** on smaller windfall sites with planning permission being recorded as deliverable for the five year period.

Windfall allowance

19. Paragraph 70 of the Framework allows Local Planning Authorities to make an allowance for windfall sites as part of anticipated supply if there is compelling evidence that they will provide a reliable source of supply. It states that any allowance should be realistic having regard to the Strategic Housing Land Availability Assessment, historic windfall delivery rates and expected future trends. In accordance with this, Chorley makes an allowance for windfall sites of less than 10 dwellings in the five year supply as our records show that they have consistently become available. Applications will also be approved over the five year supply period for dwellings on windfall sites of more than 10 dwellings however an allowance has not been calculated for these larger sites.

Planning permissions on windfall sites

20. Planning permissions granted for dwellings on windfall sites of less than 10 dwellings since the start of the plan period (2010) have been analysed to inform the windfall allowance. Table 4 below sets out the number of permissions on these sites granted each year. Sites that did not result in a net gain and permissions on residential gardens have been excluded from the analysis. Over the period 2010 to 2023 on average 92 dwellings were permitted on small windfall sites each year.

Table 4: Number of dwellings permitted on small windfall sites of less than 10 dwellings

	Plan period (1 st April - 31 st March)												
	2010/ 11	2011/ 12	2012/ 13	2013/ 14	2014/ 15	2015/ 16	2016/ 17	2017/ 18	2018/ 19	2019/ 20	2020/ 21	2021/ 22	2022/ 23
Number of dwellings permitted (net)	74	60	116	96	91	116	122	81	78	82	110	84	89

Completions on windfall sites

21. Table 5 analyses when the dwellings permitted on small windfall sites were completed over the five year period from being permitted. It also records how many of these dwellings expired in the five year period and how many were not completed in the five year period but the permission was still extant. Planning permissions for small windfall sites after the 2018/19 monitoring period have not been included in the assessment as the five year period for those applications would run into the current five year supply period.
22. Using this data, the percentage of dwellings completed each year over the five year period from being permitted has been calculated along with the percentage that were on sites where permission expired and those on sites where permission was extant after the five year period. These percentages have been rounded up or down for simplification. They will be used when calculating the windfall allowance to be added to the five year supply.

Table 5: Analysis of completions (net) on small windfall sites

Plan period (1st April-31st March)	Number of dwellings permitted	Completions year 1	Completions year 2	Completions year 3	Completions year 4	Completions year 5	Expired	Extant after 5 years
2010/11	74	-1	4	21	19	4	14	13
2011/12	60	2	8	19	12	5	8	6
2012/13	116	8	34	15	19	0	23	17
2013/14	96	5	32	17	13	7	12	10
2014/15	91	6	17	12	19	6	16	15
2015/16	116	7	24	10	13	11	21	30
2016/17	122	6	16	10	26	9	27	28
2017/18	81	3	9	19	14	4	23	9
2018/19	78	1	4	9	14	3	33	14
Total	834	37	148	132	149	49	177	142
Total %	100%	4%	18%	16%	18%	6%	21%	17%

Windfall allowance

23. The five year supply windfall allowance is calculated based upon the assumption that the average rate of planning permissions granted on small windfall sites between 2011 and 2023 (92 dwellings) continues at the same rate throughout the five year period.
24. The final row of Table 5 identifies the proportion of dwellings completed on small windfall sites each year since 2010 over the five year period since being granted permission. It identifies that on average 4% of dwellings were completed within the first year of being permitted, 18% within the second year, 16% within the third year, 18% within the fourth year and 6% within the fifth year. It also identifies that on average 21% of applications expired and 17% of the dwellings permitted were not completed in the five year period but the permission remained extant. These percentages have been applied to calculate the predicted number of dwellings that will be permitted and built on small windfall sites over the next five years, as set out in Table 6.

Table 6: Predicted completions (net) on small windfall sites over five year period 2023 - 2028

Plan period (1 st April-31 st March)	Predictions						Total Completions
	Number of dwellings permitted	Completions Year 1 (2023/24)	Completions Year 2 (2024/25)	Completions Year 3 (2025/26)	Completions Year 4 (2026/27)	Completions Year 5 (2027/28)	
2023/24	92	4	17	15	17	6	59
2024/25	92		4	17	15	17	53
2025/26	92			4	17	15	36
2026/27	92				4	17	21
2027/28	92					4	4
Total	460	4	21	36	53	59	173

25. Based on the assumption of 92 dwellings being permitted each year of the five year period, Table 6 estimates that of those 92 dwellings permitted in 2023/24, 4 will be completed within the first year of being permitted (year 1), 17 will be completed in 2024/25 (year 2), 15 will be completed in 2025/26 (year 3), 17 will be completed in 2026/27 (year 4) and 6 will be completed in 2027/28 (year 5). This equates to 59 dwellings being completed in the five year period as it is assumed that 21% of the 93 dwellings will expire and 17% will not be completed within five years so are not included in the five

year supply. The same approach has been applied to estimate how many dwellings permitted in the remainder of the five year period will be built by 31st March 2028.

26. Over the five year period as a whole an additional **173 dwellings** are predicted to be completed on small windfall sites and will be included in the five year supply.

Total Five Year Housing Supply: 1st April 2023 – 31st March 2028

27. The table below shows that at 1st April 2023 there was a total supply of 1,717 (net) deliverable dwellings which is a **3.2 year deliverable housing supply over the period 2023 – 2028** based on the annual requirement of 530 dwellings which includes a 5% buffer.

Table 7: Five year housing supply summary

Deliverable Housing Supply	Number of Dwellings
Allocated sites with planning permission	557
Allocated sites without planning permission	112
Windfall sites of 10 or more dwellings with planning permission	613
Windfall sites of less than 10 dwellings with planning permission (discounted by 38%)	262
Windfall allowance	173
Total Five Year Supply	1,717
Annual Five Year Housing Requirement 2023-2028 + 5% buffer	530
Equivalent Years Supply	3.2

Chorley Five Year Supply April 2023 – March 2028: Allocated Sites with Planning Permission

Local Plan Ref	Address	Settlement	Parish	Ward	Application Number	Dwellings Permitted	Dwellings Not Started	Dwellings U/C	Dwellings Completed	Dwellings Left to be Built	Deliverable Dwellings April 2023-March 2024	Deliverable Dwellings April 2024-March 2025	Deliverable Dwellings April 2025-March 2026	Deliverable Dwellings April 2026-March 2027	Deliverable Dwellings April 2027-March 2028	Total Deliverable Dwellings April 2023 - March 2028	Comments
HS1.21	Parcels H1d and H1b(i), Group 1, Euxton Lane	Buckshaw Village	Euxton	Buckshaw & Whittle	19/00137/REMAJ	128	9	19	100	28	28	0	0	0	0	28	28 dwellings left to be built at 1st April 2023, 19 of which were under construction.

Chorley Five Year Supply April 2023 – March 2028: Allocated Sites without Planning Permission

Local Plan Ref	Address	Settlement	Parish	Ward	Number of Dwellings Allocated	Deliverable Dwellings April 2023-March 2024	Deliverable Dwellings April 2024-March 2025	Deliverable Dwellings April 2025-March 2026	Deliverable Dwellings April 2026-March 2027	Deliverable Dwellings April 2027-March 2028	Total Deliverable Dwellings April 2023 - March 2028	Comments
HS1.26	Fairport, Market Place	Adlington	Adlington	Adlington and Anderton	31	0	0	0	0	0	0	Planning permission granted for new employment floorspace. No evidence that the site will come forward for housing in the five year period.
HS1.1	Eaves Green, off Lower Burgh Way (remaining allocation)	Chorley	Chorley/Coppull	Chorley South West/Coppull	31	0	0	0	0	0	0	The site is allocated for 419 dwellings. 187 dwellings have been built on part of the site. Planning permission was granted on appeal for 201 dwellings on part of this site. This leaves 31 dwellings. There is no evidence that the remainder of this site will come forward in the five-year period.
HS1.5	Cowling Farm	Chorley	Chorley	Chorley East	158	0	0	16	48	48	112	A land exchange has taken place between the Council and Homes England, with Homes England now owning the residential part of the allocation. A masterplan has also been prepared for the site. Homes England have advised that following approval of outline and reserved matters planning applications, housebuilding on the site is expected to commence by the end of July 2024. 4 completions per month are expected and the development is expected to be complete by Spring 2028. An allowance of 6 months for completions to start has been made.
HS1.17	Cabbage Hall Fields	Chorley	Chorley	Chorley North & Astley	11	0	0	0	0	0	0	No evidence that the site will come forward in the five year period.
HS1.19	Land adjacent to Northgate	Chorley	Chorley	Chorley North & Astley	21	0	0	0	0	0	0	No evidence that the site will come forward in the five year period.
HS1.29	Westwood Road	Clayton Brook/Green	Clayton-le-Woods	Clayton East, Brindle & Hoghton	23	0	0	0	0	0	0	No evidence that the site will come forward in the five year period.

Local Plan Ref	Address	Settlement	Parish	Ward	Number of Dwellings Allocated	Deliverable Dwellings April 2023-March 2024	Deliverable Dwellings April 2024-March 2025	Deliverable Dwellings April 2025-March 2026	Deliverable Dwellings April 2026-March 2027	Deliverable Dwellings April 2027-March 2028	Total Deliverable Dwellings April 2023 - March 2028	Comments
HS1.31	Land to the East of Wigan Road (remaining allocation)	Clayton-le-Woods	Clayton-le-Woods	Clayton West & Cuerden	0	0	0	0	0	0	0	The site is a mixed housing/employment allocation. 37.14ha/699 dwellings are allocated for housing. 818 dwellings have planning permission on 36.14 ha of land. The dwellings are being built at a higher density than estimated on the parcels with planning permission therefore the number of dwellings on this site has exceeded the allocated number of 699. This leaves 1 ha for further housing however there is no evidence that any of this land will come forward in the five year period. Not withstanding this, applications for 70 and 103 dwellings have been submitted on part of this site and are under consideration. Only one of these would come forward as they are on broadly the same site.
HS1.34	Regent Street	Coppull	Coppull	Coppull	22	0	0	0	0	0	0	No evidence that the site will come forward in the five year period.
HS1.38	Mountain Road	Coppull	Coppull	Coppull	22	0	0	0	0	0	0	No evidence that the site will come forward in the five year period.
HS1.46	Land at Drinkwater Farm, Windsor Drive	Brinscall	Withnell	Chorley North East	10	0	0	0	0	0	0	No evidence that the site will come forward in the five year period.
HS1.52	Pole Green Nurseries	Charnock Richard	Charnock Richard	Eccleston, Heskin & Charnock Richard	29	0	0	0	0	0	0	No evidence that the site will come forward in the five year period. A previous planning application on the site expired in 2014.
